## FLASHBACK

### Picture-perfect for the camera

In precise penmanship on the back of this photo from the Reporter's archives, the two women are identified as Mrs. Caswell and Mrs. Wells — with this added note: "Taken under the wild cherry tree when C.C.C. Sr. lived in Dr. Fiske's house." Who, we wonder, was C.C.C. and where was that cherry tree? If you know, call Archer at the Reporter, 749-1000, extension 26, or email her at [a.brown@sireporter.com](mailto:a.brown@sireporter.com).

## BACK WHEN

**50 YEARS AGO**

### Expressway progress tied to aid funds

The Long Island Expressway will be completed to Riverhead in 1967 — if federal and state funds allocated for the work "remain at present levels," the State Superintendent of Public Works reveals. J. Burch McMorrان made the announcement following a recent meeting in Babylon with Robert Moses, chairman of the Long Island State Park Commission, and other highway officials. • MARCH 5, 1960

### Record throng cheers alumni hoopsters

Extra, extra, better read all about it ... Hardly a spectator could remember when the school's gym was so packed. Practically every inch of bleacher space was taken, and no one could recall when the school song, "Blue and Gray," was sung so loud and so well. It was last Thursday during what is to be an annual event — an alumni-faculty-varsity basketball game — when the greats and not-so-greats returned to the once familiar court. • MARCH 7, 1985

### Shelter Island subway coming soon

An Island-wide subway system that can bring you from South Ferry, making stops at Mashomack, the Center, the Heights and finally North Ferry, could it be true? Not quite, but in progress at the school is an art project headed by Stephanie Needham, the school's art teacher, that will recreate an old New York City I.R.T. subway station. • MARCH 2, 2000
